DEFINITIONS AND FREQUENTLY ASKED QUESTIONS

This year's EASIE Part II application has been preloaded with all available data certified from the prior year. If your entity finds that data are not preloaded for one or more questions, no prior year data was available to load for that question. If any data needs to be updated, applicants can overwrite the preloaded data in the data fields.

Section 1: Grantee Information

Type of Applicant: LEA Individual

Type of Application: Formula grant project consolidated with a Title I schoolwide program

<u>Application Timeframe</u>: Multi-Year <u>Current Application Cycle</u>: Year 2 Of 4

Grade Levels Served: K,1,2,3,4,5,6,7,8,9,10,11,12

Reporting Period: Jul 1 2022 - Jun 30 2023

Section 2: Grant Objective Participation Data Comment

The comment section is mandatory for all grantees. All grantees are required to provide highlights of the project's goals describing the extent the activities and services address the unique cultural, language and educational needs of Indian students. Character limit is 2,000 characters.

Note: For Title I Schoolwide programs, you must include information about project activities and services, and the extent to which the activities and services address the unique cultural, language and educational needs of Indian students, and how the use of funds in a schoolwide program produced benefits to Indian students that would not be achieved if the funds were not used in a schoolwide program.

District Response:

The consolidation of funds allows students from smaller schools to have access to instructors at the larger schools (through distance/blended learning systems) to teach the content that would otherwise not be available. This provides greater access to high-quality instruction for all Alaska Native students in the district that would otherwise be sporadic without other funding sources. The program continues to provide language courses taught via distance delivery and blended models from two teachers in Manokotak School to students in three very small schools where access to face-to-face instruction is non-existent. There was a district-wide language contests that included teams from each school that worked on a storytelling component, vocabulary component, and a written component. This instructional model allows students access to regional language experts and cultural knowledge bearers that may not be readily available in their own communities.

The Cultural Mentorship program continues to be a successful model to break down cultural barriers for new teachers in our schools. Experienced teachers and community members serve as cultural mentor to new staff as part of a comprehensive orientation program. The district was able to develop a parent handbook to support language instruction in the home. Other benefits include a broader range of access to elective courses and project-based instruction during "exploration weeks" that are focused around the project objectives and schoolwide program goals. These exploration weeks occur four times each year and part of the program is to provide opportunities for students to participate in an culturally integrated, culturally rich classes that aren't typically available in a traditional year-long model.

Overall, the consolidation of funds provides a more robust program for all students.

Section 3: Cultural Data

The pre-filled data in the tables below are National aggregate percentage scores for AI/AN students in grades four and eight selected NIES culturally-related questions. The NIES is administered every four years. Please find additional information here: https://nces.ed.gov/nationsreportcard/nies/

All AI/AN students includes all AI/AN students sampled throughout the nation in public, private, BIE, and Department of Defense schools. Details may not sum to totals due to rounding. Section 4: State Assessment Data

Title VI requires that application assess the needs of Indian students to ascertain the areas for project focus. As you review your ED Facts assessment information, you should consider the areas of assistance that would best enable Indian students to achieve state standards. When choosing program objectives, keep assessment data in mind. Additionally, your progress toward meeting your selected objectives will be measured based on the assessment data that you provide.
